Welcome to Das Musikding Onlineshop

Das Musikding is your online store for building guitar effect pedals, bass effect pedals, guitar amps, bass amps, synthesizer and many other musical related electronics projects. You can get pedal parts or complete kits, for all stages of building experience. Effects are great for guitar and Bass! Guitar effect kits available are Distortion, Booster, Fuzz, Overdrive, Delay, Tremolo, Compressor, Switches, Loopers and many other. We also feature kits and modules by GuitarPCB.com and Molten Voltage Pedalsync. Amp kits are available by Madamp, great kits for a great price. Building guitar and bass effects made easy! You can get resistors, capacitors, potentiometer, knobs, jacks and plugs, aluminium and steel enclosure, transformer, wire and cable and many more things. Manufacturer are Wima, Alpha, Neutrik, Switchcraft and many more. Our shipping costs are low and the prices very good. If you need a special offer, just ask us!

\* All prices inclusive legal VAT (value added tax) plus shipping costs (<https://www.musikding.de/Shipping-costs>)
